## LARGE ACREAGE OF WHEAT IN PONTOTOC

County Agent J. B. Hill reports that an unprecedented acreage of wheat has been planted in Pontotoc county this fall and that it is all in fine condition. He estimates the increase in acreage at 300 per cent and figures that with an average yield Pontotoc county will produce

from twenty to thirty cars more than usual.

He states that about 1100 acres have been sowed in Fitzhugh district, which has always been noted for its crops of small grain, and that some districts which have never grown wheat now contain as much as 200 acres.

# AUSTRIANS BEATEN ON ITALIAN FRONT

ITALIANS AND ALLIES CAPTURE 15,000 PRISONERS. BRITISH DEFEAT TURKS IN MESOPOTAMIA.

(Associated Press War Summary)

Suddenly shifting the direction of attack, Italian and British troops have crossed the Piave river over a wide front and are driving a wedge into the Austrian line in the direction of the city of Oderzo, an important railroad center. Its capture would probably result in an enforced retirement along the Piave river to the sea. Fifteen thousand prisoners had been taken by the British, French and Italian forces up to a late hour yesterday on the Piave front.

French are developing the successes won by General Debeney's army below Guise on Saturday and Sunday. Reports indicate further progress here. American units have joined the French in this section and have advanced upwards of miles.

British divisions along the Tigris in Mesopotamia have again defeated the Turks and have advanced ten miles.

### American Front Active.

WITH THE AMERICAN ARMY NORTHWEST OF VERDUN.—(10 a. m.)—Activities along the center of the American front began long before daylight this morning with furious bombardment. The enemy opened a heavy fire with gas shells at 2:30 o'clock and changed to high explosives between 4 and 5. American artillery responded. American patrols were active in Bantheville wood all night.

### Quiet on British Front.

LONDON, October 29.—Artillery duels and patrol engagements were the only activity on the British front during the night according to today's official statement.

### French Closing In On Guise.

PARIS, October 29.—General Debeney's first army continues to close in on Guise and has captured the German first line trenches and barracks and hospital south of Chateau in Guise, according to a war office statement today. South of Guise the French have passed beyond Louvry farm and continue to progress on the right bank of the Perone river.

### Turkey Seeks Peace.

LONDON, October 29.—Turkey has independently presented peace proposals to the entente nations, according to a report from Constantinople forwarded by the Copenhagen correspondent of the Exchange Telegraph company. Negotiations are expected to begin soon, the dispatch adds.

## NEW STATE SET UP IN HUNGARY

COUNT KAROLYI HEADS NEW MOVE FOR INDEPENDENCE. CZECHS AND SLOVAKS JOIN.

(By the Associated Press)

COPENHAGEN, Oct. 29.—An independent and anti-dynastic state has been formed in Hungary under the leadership of Count Michael Karolyi, in agreement with the Czechs and south Slavonians, according to Vienna advices to the newspaper Politiken. In a speech at Budapest Karolyi declared he had presented his program to Emperor Charles, but the latter refused to accept it. Karolyi thereupon put into effect this independent state plan.

## AMENDMENTS TO HUN CONSTITUTION

(By the Associated Press)

COPENHAGEN, Oct. 29.—The German Federal Council has approved a bill amending the imperial constitution in the form adopted by the Reichstag, according to a Berlin telegram. The Reichstag Saturday amended the constitution by placing the military authorities under control of the civil government, General Ludendorff's retirement is reported due to this action.

## AMERICANS ON ITALIAN FRONT

INDICATES THAT DRIVE IS PART OF GREAT CAMPAIGN TO WIN WAR.

(By the Associated Press)

ITALIAN HEADQUARTERS ON PIAVE, October 29.—American soldiers are in reserve along the Piave fighting zone. The correspondent saw an American battalion going through its setting up exercises this morning.

WASHINGTON, October 29.—American troops are on the verge of active participation in the great war on the third major front, according to the interpretation given here to news from Italian headquarters that Americans are standing in reserve on the Piave line. This news is considered significant. Not because of the size of the American contingent in Italy, or the direct military effect, but because it indicates that the Italian drive is a definite part of the great offensive which is rapidly bringing defeat to the central powers. It is believed here that not more than one brigade of Americans are in Italy.

John P. Crawford, who was accepted for the officers' training camp some weeks ago, has passed his physical examination and will report for duty about December 1. Having had three years military training in college, Mr. Crawford has a good start already.

## KEPT HER AWAKE

The Terrible Pains in Back and Sides. Cardui Gave Relief.

Marksville, La.—Mrs. Alice Johnson, of this place, writes: "For one year I suffered with an awful misery in my back and sides. My left side was hurting me all the time. The misery was something awful.

I could not do anything, not even sleep at night. It kept me awake most of the night. I took different medicines, but nothing did me any good or relieve me until I took Cardui.

I was not able to do any of my work for one year and I got worse all the time, was confined to my bed off and on. I got so bad with my back that when I stooped down I was not able to straighten up again. I decided I would try Cardui.

By time I had taken the entire bottle I was feeling pretty good and could straighten up and my pains were nearly all gone.

I shall always praise Cardui. I continued taking it until I was strong and well. If you suffer from pains due to female complaints, Cardui may be just what you need. Thousands of women who once suffered in this way now praise Cardui for their present good health. Give it a trial.

After several months of comparative quiet and preparation the Italians and other allied troops in Italy are moving and so are the Austrians, the latter back towards their border. It looks like a big offensive and the fact that the Allies mean business and are in position to take the Austrians to a general cleaning is the real reason for the Austrians yelling for peace. They say they are ready to accept Wilson's terms which virtually means a dismemberment of the old empire, and if they really mean it they evidently fear for what will happen when the allied armies reach Austrian soil. The Serbs are nearing the Danube and once across that stream what they would do to the Austrians would be plenty. However, the whole thing may be another German trick and the Allied commanders will not be very hasty about agreeing to an armistice except on terms amounting to unconditional surrender.

## AUSTRIA-HUNGARY WANTS OUT.

Austria-Hungary has asked the president to use his good graces in bringing about an armistice between that monarchy and the Allied nations fighting her. That President Wilson will ask the Allied leaders for terms for an armistice goes without

saying. The course amounts to a surrender by Austria-Hungary and means that that hitherto monarchy will pass from the scene of action. In the place of the dual monarchy will rise Bohemia, Poland, and a rejuvenated Roumania, a larger and independent Serbia and a larger Italy. Austria and Hungary will probably be separated. Where five years ago ruled a king of almost supreme power, in a few months there will be several independent states.

Why does Austria-Hungary ask for peace? She is beaten on every front and her strong ally, Germany, is capitulating at a rapid rate. The Italian offensive will probably put the entire Austrian army in that country out of the fighting and do it within a few weeks. It appears that the Italians, French and British will bottle up the entire Austrian forces and capture them in toto. It will be either a capture or a rout, either of which will amount to the same thing. In fact, Austrians are subject to rout, in this respect unlike the Germans.

Peace is in sight. With Austria-Hungary out of the way, Germany will have a difficult task keeping on with the struggle. One of the demands of the Allies will be the right to use the Austrian railroads for the transportation of troops to the back door of Germany. It is not all over yet, but it is in a fair way to get over.

## SECRETARY BAKER AMONG THE TROOPS

(By the Associated Press)

London, Oct. 28.—Enlisted men of the American army grinned sympathetically as they watched the American Secretary of War, Newton D. Baker, trudging back and forth carrying the heavy pack of the American soldier on his back, when he visited the camp of American soldiers in the Winchester district while in England. The men were adjusting their combsome kits when the secretary arrived at the camp.

"I would like to try one of them," said the Secretary to the sergeant.

The Lord Mayor of Winchester, the camp commandant and a group of soldiers all gathered about as Mr. Baker lifted the pack and adjusted it to his shoulders. Then he trudged back and forth two or three times carrying the seventy pound load while a pair of heavy hob-nailed trench boots, swinging from the bottom of the kit, banged against his legs.

"It's heavy alright," he commented as he unburdened himself, "but not so heavy as the Frenchman's pack. I tried one of them on a few days ago and it gave me an additional respect for the Frenchman as a soldier."

The Secretary made himself at home and was friendly with the soldiers. Everywhere he filled his pipe and sometimes filled it from some soldier's pouch as he engaged in a casual chat with the men. "The whole country is behind you with everything it possesses," was one of his frequent messages to the fighting men. In the Red Cross hospitals the Secretary went through the wards and had a few cherry words for each of the patients.

In some of the camps he dropped in upon the soldiers at mess time and lunched with the big crowd of them in the mess tent beside a little woodland stream. He looked through scores of barracks and living quarters. He inspected kitchens and spent ten minutes watching soldiers play a scrub game of base ball. His inspection of the Red Cross activities was comprehensive. He saw the bathing houses in operation with the long lines of rain-coated soldiers, waiting their turn at the showers. He saw the dental huts, with the Red Cross dentists busy at their work. He visited several Red Cross recreation huts and listened to the Red Cross Jazz hands at practice.

At one camp he found his cousin, Sergeant Harry Chiskell of Cleveland and chatted with him for ten minutes. Altogether the Secretary gained an excellent impression of what the American Army authorities have done in preparing comfortable and sanitary camps for the soldiers in the Winchester district, south of London, in preparation for the winter.

## FOUR TICKETS IN FIELD IN MINNESOTA

(By the Associated Press)

St. Paul, Minn., Oct. 29.—The contest for United States Senator, in which Senator Knute Nelson, republican, is opposed by Willis G. Calderwood, National Party Nominee, and the fight is for governor, in which five parties are represented, are the outstanding features in the Minnesota political campaign.

Besides choosing a senator and governor on November 5, voters will elect a full state and congressional ticket, and pass on a state dry amendment.

One of the most interesting congressional fights is between Clarence B. Miller, who seeks re-election on the republican ticket in the eighth

district, and W. L. Carse, one of the four "Farmer Labor" candidates who were filed by petition after being nominated at a state mass meeting here. The four candidates were introduced by the Nonpartisan League, which are active politically in Minnesota. Besides the eighth congressional district, they seek the offices of governor, railroad commissioner and attorney general.

In the gubernatorial contest, Governor Burnquist, on the republican ticket, is opposed by Fred E. Wheaton, democrat; Olaf O. Stageberg, a National Party candidate; L. B. Berof, Socialist; and David H. Evans, Farmer Labor candidate.

The National Party has candidates for all state offices, while the Socialist party seeks only the office of governor.

The Democratic party did not place a candidate in the field against Senator Nelson, who is commonly referred to as the "Grand Old Man of Minnesota," and who seeks his fifth term in the senate.

The recent forest fire in Northwestern Minnesota, which snuffed out a thousand lives, for a time halted the campaign, but renewed interest is developing and a heavy vote is expected.

In the congressional contests, the republican candidates are Sidney Anderson, in the first district; Franklin F. Ellsworth, second; Charles R. Davis, third; Walter Mallory fourth; Walter H. Newton, fifth; Harold Knutson, sixth; Andrew J. Volstead, seventh; Clarence B. Miller, eighth; Halvor Steenerson, ninth and Thomas D. Sshall, tenth.

Democratic candidates for congress are Frank Simon, second district; John J. Farrell, third; Carl C. Van Dyke, fourth; W. C. Robertson, fifth; P. J. Russell, sixth; and Henry A. Finlayson in the tenth.

## THE MEN IN CLASS A1

A sound, healthy man is never a back number. A man can be as vigorous and able at seventy as at twenty. Condition, not years, puts you in the discard. A system weakened by overwork and careless living brings old age prematurely. The bodily functions are impaired and unpleasant symptoms appear. The weak spot is generally the kidneys. Keep them clean and in proper working condition and you will generally find yourself in Class A1. Take GOLD MEDAL Haarlem Oil Capsules periodically and your system will always be in working order. Your spirits will be enlivened, your muscles supple, your mind active, and your body capable of hard work.

Don't wait until you have been rejected. Commence to be a first-class man now. Go to your druggist at once. Get a trial box of GOLD MEDAL Haarlem Oil Capsules. They are made of the pure, original, imported Haarlem Oil—the kind your great-grandfather used. Two capsules each day will keep you toned up and feeling fine. Money refunded if they do not help you. Remember to ask for the imported GOLD MEDAL brand. In three sizes, sealed packages.

Get your leaky tops repaired and waterproofed at Ada Auto-Top Works.

## INFLUENZA WORSE THAN HUN BULLETS

Claiming More Victims Than Battle Fronts of Europe—Disease Can Be Avoided.

According to carefully compiled statistics it is an indisputable fact that the Spanish Influenza Epidemic which is now sweeping all parts of the country is daily claiming far more victims than German bullets on the battle fronts of Europe. Although civil and military authorities have succeeded in checking the disease in some localities, it is growing worse in others and continues to spread at an alarming rate. That the disease can be avoided there is no longer any doubt. According to leading authorities the powers of resistance of the human system can be so perfected that it can throw off almost any infection, not even excepting Spanish Influenza, which is one of the most contagious diseases known.

It is persons who are suffering from lowered vitality, who are weak and rundown and who have not the strength to throw it off who are the earliest victims. Persons who have bad colds, who are suffering from catarrhal troubles, or inflammation of the mucus membranes are especially susceptible, as the inflamed mucus membrane linings of the nose and throat are an open door to the germs. This condition is almost always accompanied by a weakened condition of the system.

If you are suffering from any of these symptoms, nothing on earth will build you up and strengthen you like Tanlac, which contains the most powerful tonic properties known to science.

This statement is easily proven by the fact that Tanlac is now having the greatest sale of any system tonic in the history of medicine. In less than four years time over Ten Million Bottles have been sold and the demand is constantly increasing. Thousands are using it daily for the above troubles with the most astonishing and gratifying results.

Tanlac increases your strength and weight and creates a good, healthy appetite for nourishing food. It keeps you physically fit and helps every organ of the body perform its proper function in the natural way.

In connection with the Tanlac Treatment be sure and keep the bowels open by taking Tanlac Laxative Tablets, samples of which are included in every bottle.

Tanlac is sold in Ada by Gwin & Mays Drug Co.

## GERMANY WILL BUY LITTLE FROM UNITED STATES

Amsterdam, Oct. 28.—"No buying from America if it can possibly be avoided," must be the German watchword after the war, is the assertion of the Rhenish Westphalian Gazette, an important German industrial organ. The reason given by the paper is that before the war, the balance of trade between the United States and Germany was against Germany to the extent of nearly 1,000,000,000 marks a year. Germany imported from the United States goods to the value of 1,711,000,000 marks while German exports to the United States amounted to 713,000,000 marks. Dividends on German holdings of American securities, in addition, helped to pay the bill for goods bought in America.

"How could we possibly meet a still further increased debit balance?" asks the paper in despair. "We had to realize our American securities to pay for raw materials while the United States was still neutral, to meet demurrage on our ships held in American ports."

The conclusion seems inevitable to the Gazette that Germany must so curtail her cotton and copper imports from the United States that they do not exceed, or only slightly exceed her own exports of fertilizers, dyes, chemicals, etc. The rest of Germany's erstwhile imports from America, it says, can and must be stricken off the list.

"Our imports of American agricultural machinery must cease," says the writer. The openings offered in Russia, Roumania and the Balkans are so great that we must push our own machinery there with all our might."

Do not neglect the warnings of nature. If your appetite is poor, breath bad, tongue coated, you will be sick unless you take steps to put your system in good condition. Prickly Ash Bitters is the remedy you need. It purifies the bowels, strengthens digestion and regulates the liver. Price \$1.25 per bottle.—Gwin & Mays Drug Co., special agents.

### Only Dine.

A great artist was once describing the decadence which in so many cases seemed to unfold the middle period of life. "Yes," he said, "old men dream, and young men see visions, but middle-aged men only dine."

When the chest feels on fire and the throat burns, you have indigestion and you need HERBINE to get rid of the disagreeable feeling. It drives out badly digested food, strengthens the stomach and purifies the bowels. Sold by Bart Smith.

## WOMAN'S STATEMENT WILL HELP ADA.

I hated cooking because whatever I ate gave me sour stomach and a bloated feeling. I drank hot water and olive oil by the gallon. Nothing helped until I tried simple buckthorn bark, glycerine, etc., as mixed in Adler-Ika, because it flushes the ENTIRE bowel tract completely. Adler-Ika relieves ANY CASE sour stomach, gas or constipation and prevents appendicitis

## AVIATION MAKES WONDERFUL PROGRESS

(By the Associated Press)  
London, Oct. 28.—No other development in human history has shown so remarkable results as has flying in the last ten years, says Lord Montagu of Beaulieu, a British scientist and aviation expert.

"When the Wright brothers visited Europe ten years ago," he said, "the airplane engines were 24-horse power. Today they are 750-horse power in some cases, and the airplanes carrying capacity has been increased from about 126 pounds to three and one-half tons.

Ten thousand feet was then the highest flight. Today we are doing 26,000. And while forty miles an hour was then the highest speed, today we are approaching 160.

"The British army in France began with only thirty-three planes. I may not give the number today, but it is huge."

Long flights to and from America, for instance, would be possible after the war, Lord Montagu said, adding that he himself hoped some day to fly to India. For long distance flying, however, he continued, it would be necessary to evolve a silent engine, for the public would not be willing to take lengthy trips in noisy airplanes.

## WILSON REPLIES TO REP. CRITICS

### DENIES THAT FREE TRADE IS IMPLIED IN THE FOURTEEN PEACE PRINCIPLES

(By the Associated Press)  
Washington, Oct. 29.—President Wilson today replied to the republican contentions that the third of his fourteen peace terms is a free trade plank by explaining in a letter to Senator Simmons of North Carolina, that in demanding the removal of economic barriers he didn't mean to suggest internal restrictions but that whatever tariff any nation considered necessary should apply equally to all foreign nations. The President said the free trade bogey is not involved at all and deplored the efforts to ben momentous issues to partisan service.

## STARVATION IN STORE FOR RUSSIANS

(By the Associated Press)  
London, Oct. 25.—A winter of starvation is a safe prediction for Russia. Indications are that it will be one of the worst winters the Russian people have experienced in all their history.

All summer the food situation in Russia, particularly in Moscow, Petrograd and other large cities has been steadily growing more and more acute. In the latter part of August, before the writer left Moscow, bread, or that mixture of straw, oat husks and other ingredients of unknown origin which Moscow inhabitants are induced to accept as bread, had almost entirely disappeared, and certain city districts had not received the usual allowance for nearly a week.

The government had classified the population into categories, whereby working men and government employees received a larger allowance, while professionals and well-to-do people got the smallest, which in Moscow amounts to one-sixteenth of a pound. In Petrograd the four-goats or middle class fared poorly on an allowance of three herrings a day.

The shortage of bread is largely due to the government's short sighted policy in fixing a low price for grain which did not even cover the farmer's expenditure, let alone profit. The peasants refused to comply with the decree to turn over all grain in excess of a certain arbitrarily fixed amount to the food committee, and when the latter were reinforced by a detachment of armed "bread crusaders," the peasants gathered from several villages and offered resistance, frequently putting the crusaders to flight.

But even if the government price were much higher the peasants would not willingly exchange their grain for worthless money, of which they seem to have much and which has no practical value to them. They want manufactured goods which the government is unable to furnish, as most of the factories are idle, for lack of fuel and raw material, and also because the Bolsheviks need the workmen to fight on the numerous fronts.

### Catarri Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarri is a local disease, greatly influenced by constitutional conditions, and in order to cure it you must take an internal remedy. Hall's Catarri Cure is taken internally and acts thru the blood on the mucous surfaces of the system. Hall's Catarri Cure was prescribed by one of the best physicians in this country for years. It is composed of some of the most potent known, combined with some of the best blood purifiers. The perfect combination of the ingredients in Hall's Catarri Cure is what produces such wonderful results in catarrhal conditions. Send for testimonials, free. F. J. CHENEY & CO., Props., Toledo, O. To the Principals and Teachers of the Ada City Schools.

For the next three weeks or more, we will need, badly, the services of not less than four volunteer helpers at our office in the auditorium of the city hall, and we know of no more patriotic body of men and women than the teachers of our city.

There will be no school this week, and we are appealing to you for assistance. Mrs. Mabel Browall, Secretary of the Board of Education, has been appointed supervisor of this work, and we will thank you to report to her at her office at once and let her know what days you can work. Four teachers a day will be plenty, and she will arrange the order in which you are to work, and thus avoid confusion.

Thanking you in advance for this assistance which we assure you is of vital importance to the government, we remain, Very truly yours, Local Board Pontotoc County, Ada, Oklahoma.

By T. P. Holt, Chairman.  
If your child starts in its sleep, grinds its teeth while sleeping, picks at the nose, has a bad breath, fickle appetite, pale complexion, and dark rings under the eyes; it has worms; and as long as they remain in the intestines, that child will be sickly. WHITE'S CREAM VERMIFUGE clears out the worms, strengthens the stomach and bowels, and puts the little one on the road to health and cheerfulness. Sold by Bart Smith.

## Real Meaning of the Building Restrictions

Since the War Industries Board sent forth its famous Order No. 21, restricting building, we have had numerous inquiries from our readers as to the exact meaning of that order and what class of buildings were prohibited and what allowed and under what conditions.

A matter of such vital importance to the growth of Ada—a matter which can so radically affect its prosperity—calls for a clear understanding and explanation.

In order to secure the official, authoritative ruling, we interviewed Mr. W. W. Sledge, of the Sledge Lumber Co.

Mr. Sledge tells us that the main idea was to entirely stop ALL building that was not absolutely necessary; this in order to save fuel, transportation, materials, money and, above all, the labor which is so vitally required both in the draft and in direct war work on ships, buildings, airplanes, munitions, supplies, etc., from the raw materials to the finished product.

However, the War Industries Board, realizing the stagnation that would result from a literal reading of this order as well as the damage to property left subject to the ravages of time and use and weather without repairs, modified the rule to permit:

1—Repairs or extensions to existing buildings involving in the aggregate a cost of not exceeding \$2,500; and

2—New construction for farm purposes only involving in the aggregate a cost not exceeding \$1000.

The matter, as explained by Mr. Sledge, is quite clear, and there should be no misunderstanding.

Briefly, any one can, just as before, and without a permit:

1—Make repairs or extensions to any EXISTING building of any kind, providing the TOTAL COST, including labor, materials and everything else, is UNDER \$2,500;

2—Build any NEW building, for FARM PURPOSES ONLY, where the TOTAL COST as above is UNDER \$1000;

3—For ALL OTHER BUILDING WORK, a permit must be first secured through P. A. Norris, O. N. Walker or A. M. Gregg, representing locally the War Industries Board.

Any violation of this regulation will subject the dealer to a loss of all privileges of purchasing his stock.

Each builder is put individually on his honor to confine his construction work to REALLY ESSENTIAL BUILDINGS and also to use as little "skilled labor" as possible.

It will be seen from the above that while NEW buildings, except small ones for the farm, are frowned on, yet REPAIRS AND NECESSARY EXTENSIONS are permissible without permit; and we believe in view of the tremendous building that will immediately follow the declaration of peace, that it will be exceedingly wise for our readers to plan for all such work at their earliest opportunity.

Ala.; 1,400 for Kelly Field, San Antonio, Texas; 1,000 negroes to Camp MacArthur and 347 to Camp Fuston Kan., will entrain during the same period.

The 1,939 men held out of the October calls because of the influenza epidemic are expected to be called for early in November.

## LIEUT. ALDERSON TELLS CHARGE ON GERMANS

France, Sept. 23, 1918.

Dear Chas.

Old boy, I have not forgotten you, but have been too busy to even think of writing. For a month we have been mixing it with the Germans and as you know by now we went over the top after them good and strong, the morning of the 12th. In our sector my battalion was the first over, so we had the most fun and also the most hell. I was good and nervous until we got started and then it was the most fun that I have ever had. In 20 minutes after we left our trenches we had Germans on their way back to our rear. That day and the next, which was the hardest, we got lots of them. When you hear a fellow say that the Germans are just about starved out and have no equipment you tell him to come over here and he will see that is all wrong. They have the best equipment I have ever seen and plenty to eat and drink, because we had had no breakfast the morning of the 12th and saw what they were just about to eat, but they did not get to start, so we had ours after they left. They were fixed up good and nice for the winter with good deep concrete dugouts, stoves that are made for that purpose and electric lights every place, and now they belong to us.

Last night I took a patrol into the Hindenburg lines without losing a man and got what we went after, although they had us in a mighty tight place for about an hour.

I don't see how I got through as lucky as I did—not even a scratch. Chas. I got both kinds, dead ones and live ones—the latter just when I had to. I took an officer that told me he had been in the war four years and had fought against most of the nations, but he had never seen anybody come over the top as cool and determined as the Americans did, and they did, too. They do not know what fear is, at least I did not see one man that showed the white feather. It was easy, though, to see lots of them take 8 and 10 Germans by themselves.

Some of these days this thing will be over and back to Ada as fast as I can beat it. Am anxious to get back in the store again.

Regards to all my friends,

PAUL.

### MISS PAULINE COLLIER DIES AT CANYON CITY

Miss Pauline Collier died Sunday morning at Canyon City, Texas, where she was attending the state normal. Her death was due to influenza. The body will be brought to Ada for interment.

Deceased was the daughter of Mrs. M. E. Collier of Ada. The mother started to Canyon City Sunday afternoon, but was recalled before reaching her destination by a message telling of the serious burning of her son by a gasoline explosion at Jack Wilson's Monday morning.

All you who have torpid liver, weak digestion or constipated bowels look out for chills. The season is here and the air is full of the disease germs. The best thing to do is to get your liver in good condition and purify the stomach and bowels. HERBINE is the right remedy. It answers the purpose completely. Sold by Bart Smith.

### HOSPITAL PATIENTS STILL IMPROVING

Good progress towards recovery is being made by the patients at the emergency hospital. A few are still seriously ill, but they are holding their own.

Only four deaths have occurred at this hospital since it was put into operation, although many serious cases have been treated, a record that is truly remarkable.

## THREE MORE DEATHS FROM INFLUENZA

The influenza situation continues to improve and the physicians report a gradual lessening in the number of new cases.

Three deaths are reported today, one in the city and two from the country.

Mrs. Oneda Lowery, wife of Chester Lowery, died at their home on South Francis, near the normal. They lost their infant a few days ago and Mr. Lowery is quite ill.

John Erwin, aged 3, son of George Erwin and wife, who live west of Ada, near the cement plant, is another victim of the epidemic.

The third case is Myrtle Goodpasture, aged 3, daughter of S. T. Goodpasture and wife, southwest of Ada.

## LIVESTOCK SHOW WILL BE HELD LATER

The epidemic of influenza has made it necessary to postpone the stock show that was to be held at Ada November 1, but it has not been abandoned. The men backing the enterprise will set a new date as soon as possible.

First Soldiers' Home.

The Soldiers' home at Washington, the first institution of the kind in the United States, was established in 1851. A tract of land for the purpose, 200 acres in extent, was purchased with a sum of money levied by Gen. Winfield Scott on the City of Mexico during the war with that country. There are now several branches of the national home, and state homes in twenty-seven states.
